• Country	<input type="text" value="United States"/>
<input checked="" type="checkbox"/> I agree to the Terms of Use and Privacy Policy	
<input type="button" value="CREATE MY ACCOUNT"/>	

Why Join listen2myradio?

listen2myradio was established in 2006 as the first free shoutcast hosting company on the internet, and even today listen2myradio remains the biggest free shoutcast hosting company in existence. More than one million users have signed up to listen2myradio for both our free and premium services. We specialize in all aspects of streaming over the internet.

First go to <http://www.listen2myradio.com/signup.php> and fill out the provided fields

Verification

We received your request to register
An e-mail was sent to you with instructions for your account
[return to Signup](#)

After you click on CREATE MY ACCOUNT an email will be sent to your email address for verification purposes. It usually arrives instantly but if that's not the case just wait a few minutes and make sure to check the Junk/Spam folders in your email account.

NOTE FOR HOTMAIL USERS

If you are using Hotmail/Live Mail as your email provider it is possible that you will encounter problems in receiving emails from us. The easiest way around this is to use a service like Gmail or Yahoo mail when signing up for a station with us.

Check your email

• Free Account Panel [Free Client Area]

Once you're on the login page (which can be accessed by hovering over LOGIN in the upper right corner and clicking on Free Account) enter your email and the password you provided while signing up. Once you've entered the details click on **LOGIN NOW**

Installing the radio

message:

Want to move your radio to your site?, [Get Premium Now:](#)
Premium radio locations: [US server](#) [DE server](#) [UK server](#)
Hosting Packages: for [Linux hosting](#) : [click here](#) for [Windows hosting](#) : [click here](#)

You need to install your radio !!!!!!!
press here to install :here

Once you're logged in you should see a page that looks like this. Click on the **here** link

Broadcaster and admin password

broadcaster password:

admin password:

In these two fields you need to enter the passwords you will be using for your radio. The **broadcaster password** is the password you will be using with your broadcasting software. The **admin password** is the password that you will use to login into the Shoutcast D.N.A.S page from where you can kick listeners, reserve slots and do similar tasks.

Title

Title (located in the browser title of the listening page)(**required 5 words minimum**):

In the title field you need to fill in the desired title for your radio. It has to be **at least 5 (five) words long**.

Text1 and Text2

Text1 (located on left of listening page)
(**required 20 words minimum and 100 maximum**)

Text2 (located on right of listening page)
(**required 20 words minimum and 100 maximum**)

These are the text fields that will be displayed on your radio page. You have to enter **at least 20 words into each field**.

Radio URL

radio url: .listen2myradio.com
Only Small letters

In this field you need to enter your desired radio URL. This is the URL that will be used by your listeners to visit and listen to your show. You may **only use lowercase English letters** for the URL. If you get an error regarding the URL make sure that you only used lowercase English letters with no spaces in the URL. If you still receive an error after making sure of that the URL is most likely taken and you should choose another one. After you've filled out all of the fields click on the **install** button.

Choosing a server

You need to choose where your radio server will be hosted on:

Radio servers :

UK (United Kingdom) - server press [here](#) (The best servers we have)

US (United States) - server press [here](#) (good servers)

CA (Canada) - server press [here](#)

DE (Germany) - server press [here](#)

On the next page click on For Next Step of Installation PRESS HERE to proceed to the next step. On the next step you have to choose a server on which your radio will be hosted. We have servers all around the world but you should **choose the server that is geographically closest to your and your audience**. Click on the **here** option next to the server of your choice to proceed to the next step.

Getting the details

RADIO/VIDEO SERVER HAS BEEN CHANGED!!!

please wait 60 seconds till your radio/video will get on

Please check [Radio Details](#) and transmit to the new server

new ip of broadcast server: 109.169.27.91

port : 38671 !

After you choose the server you will be presented with a few details that look like this. Click on the **Radio Details** option.

IP and Port

your username: tutorialexample

your email: antonio@listen2myradio.com

Stream status : **ON**

radio URL: <http://tutorialexample.listen2myradio.com>

address to broadcast: 109.169.27.91:38671

IP: 109.169.27.91 Port: 38671

On the next page you should see a section that looks like this. You need to get the **IP** and **Port**, you will need those, along with the broadcaster password, when setting up your broadcasting software.
